Better Business Decisions, Lower Costs, Greater Agility: Inside Santen's Journey to Supply Chain Transformation

Bharath Sundararaman

*General Manager, Supply Network Orchestration
TraceLink*

Frank Binder

*Global Head of Supply Chain Management
Santen*

For Santen Pharmaceuticals, the journey to supply chain transformation is about more than just reducing inventory and lead times—it's about improving agility and making better business decisions, according to Frank Binder, the company's Global Head of Supply Chain Management.

In this interview, Binder talks with Bharath Sundararaman, General Manager of Supply Network Orchestration at TraceLink, about the business impact of real-time information exchange with all supply chain partners and the importance of digitalizing external manufacturing relationships. He also discusses some of the top challenges facing Santen today, and the critical role TraceLink is playing in its supply chain transformation efforts. Watch the video now!

Video Highlights:

- **02:25** - What are today's top pharmaceutical industry challenges?
