# EU FMD Readiness and the Future of Digital Drug Supply

At FutureLink 2018 in Munich, attendees from over 100 pharma companies and CMOs shared their thoughts on key issues facing the life sciences industry today. Based on more than 1,600 responses to polling questions, learn what your peers think about:

- The biggest risk to meeting the EU FMD deadline.
- Just how ready CMOs will be.
- Managing serialization in a business-as-usual state.
- Getting long-term business value from serialization data.

Download the report to understand the industry's state of EU FMD readiness and

the opportunities created by compliance.

## Serialized Supply Chain

TraceLink's serialization program assessment continues to reveal that pharmaceutical manufacturers of every size want greater visibility into their serialized operations. They want the ability to answer critical business questions using serialization data. They want to replace manual processes with proactive monitoring tools to help them control costs and reduce risk. And they want self-service analytics that let them scale operations as their businesses grow. How do your goals align with these industry benchmarks?
