The Proactive Contract Manufacturer: Improve Customer Service and Free Up Capacity with Serialized Product Intelligence

On-Demand Webinar
Duration: Mar 11, 2021 - Mar 11, 2021

Serialized Product Intelligence, a commercial analytics application from TraceLink, helps Contract Manufacturing Organizations proactively monitor their serialized operations; quickly identify and resolve disruptions; and improve customer satisfaction.

Join Daryl Chin, Engineering Manager at Contract Pharmaceuticals Limited, and TraceLink's Bharath Sundararaman for a webinar on Thursday, March 11 at 10:00 am EST / 16:00 CET to learn how Serialized Product Intelligence will enable you to:

- **Improve customer service** through the ability to swiftly address customer inquiries and resolve issues up to 50% faster.
- **Free up resources** by automating manual labor, allowing resources to focus on critical business and IT initiatives and the onboarding of new customers.
- **Gain business insights** through visibility into inventory as well as the status of serialized product shipments allowing for improved planning and forecasting.

You'll also see a product demo focusing on some of the key Serialized Product Intelligence capabilities and use cases that will help your organization achieve operational excellence and improve customer satisfaction.
