Industry 4.0 Strategies: Digital Supply Networks are the Cornerstone of Supply Chain Resilience

On-Demand Webinar
Duration: Mar 01, 2022 - Mar 01, 2022

Digital networks of supply chain partners are enabling life sciences organizations to increase resiliency and improve delivery performance in a time of unprecedented disruption. Watch this on-demand webinar featuring Paul Cianciolo, Chief Operating Officer at TraceLink, and you will learn:

- How to build digital networks with partners to address critical supply chain challenges.
- Industry 4.0 strategies that connect disparate people, processes, systems, and information.
- Why pharma track-and-trace is the premier example of a global Industry 4.0 deployment.
- Actionable solution use cases for leveraging digital networks to attain supply chain resilience.
