Revisions

Date	Revision	Description
3 Aug 2024	01	Initial version.

UI features

There is no new or updated UI functionality included in this release.

System features

The Opus Platform is the set of tools and services used to develop and manage the apps and solutions that allow your company to accomplish its supply chain collaboration goals, including serialization, government compliance, and data analytics. This release includes Opus Platform system updates that support all Opus business apps and solutions and are available immediately. Updates that impact individual apps or solutions are documented in the applicable help center.

Resolved issues

Opus Nielsen Release, version 2024.8.0

The following issues are resolved in this release. The prefixes are for internal TraceLink tracking purposes and do not mean anything to customers.

Opus Ensemble

ID	Interface	Description
TL-42117: Update Column Header in Opus Versions Screen	Web UI	In the Opus Versions screen, the Application column header should be Solution. This issue is resolved.
TL-39110: Notification Panel Does Not Display Properly	Web UI	When the user opens the Notifications panel, the screen does not automatically resize correctly. This issue is resolved.
TL-38343: Classic TTS Solutions Display Incorrect Background	Web UI	Classic Track & Trace Services (TTS) solutions in the Opus Ensemble user experience may show a green border between the solution and the side menu. This issue is resolved.

Known issues
