FutureLink Boston 2025 Draws 200+ Top Supply Chain Leaders

FutureLink returns to Boston on April 28-30, 2025. Known for its unique ability to bring together cross-functional leaders from companies across the life sciences and healthcare supply chain, FutureLink is the premier conference to cultivate network partnerships and collaborate with executives, change makers, and business/IT leaders while learning about the latest innovations in supply chain.

More than 200 industry leaders will discuss and share ideas on how DSCSA compliance and serialization investments have created a unique strategic foundation for transforming supply chain performance and building a more agile, intelligent supply chain **across 60 practical sessions, workshops, and interactive experiences**. There is something insightful for everyone! Topics covered include:

- Maximizing revenue by avoiding out-of-stocks.
- Optimizing inventory to free up working capital.
- Improving operational efficiency through digitalization.
- Driving end-to-end supply chain digitalization on a single platform.
- Feeding AI platforms and insights with real-time supply chain data.
- Ensuring compliance with the phased DSCSA deadlines.

Featured speaker topics

Below are just a few of the topics covered by the more than 20 expert speakers at FutureLink Boston 2025:

Aurobindo

A Strategic Logistics and Distribution Foundation for Compliance, Customer Service, and Business Growth

Jamie Downey, Vice President Logistics and Distribution, Aurobindo & Sada Vellala, Data Analysis Engineer, Distribution, Aurobindo

Look at the critical role that efficient and agile logistics and distribution operations play in meeting DSCSA compliance requirements and in creating an agile business foundation to enhance customer service and promote new business growth opportunities.

Express Scripts

Organizing in Pharmacy for DSCSA Compliance Operational and Exception Management Readiness at Scale

Nyasha Taylor, Vice President of Drug Sourcing, Express Scripts

Learn how a major pharmacy needed to operationally organize and prepare for DSCSA compliance, including acquiring and using EPCIS data, modifying receiving processes, and how they worked with their suppliers at large scale to make it happen.

Sandoz

Driving Business Predictability and Efficiency in CMO Networks by Leveraging DSCSA Investments and Supply Chain Digitalization

Jeff Borden, Vice President Supply Chain NA, Sandoz

Take a look at the typical as-is approach today for how life sciences companies and contract manufacturers work across the external manufacturing relationship, highlighting the key opportunities and challenges for better orchestrating these relationships, the potential outcomes both parties may receive through digitalization, and how to make this journey a win-win for both parties.

Optum

From DSCSA Compliance to Supply Chain Optimization and Digital Transformation for Pharmacy Efficiency

Bryan Rabakon, SVP Supply Chain and Engineering, Optum

See how a pharmacy can start from a foundation of being prepared for DSCSA compliance to drive strategic business initiatives and support operational efficiency by leveraging a digital network platform and supply chain transactional and product data across their organization and with trading partners.

Below is a look at just some of the other organizations that have supply chain and IT leaders joining FutureLink Boston 2025:
