DSCSA Product Demonstration for EPCIS Exchange, Verification, and Exception Management

How can TraceLink enable [pharmaceutical manufacturers](#), wholesale distributors, [retail pharmacies](#), and [healthcare dispensers](#) to exchange

EPCIS data, verify products, and manage exceptions

ahead of the FDA's November 27, 2023 DSCSA compliance deadline? Watch our **DSCSA 2023 solution suite demonstration** and you'll find out. Here are four reasons to watch this on-demand webinar now:

- Get a firsthand look at how pharmaceutical manufacturers, [wholesale distributors](#), and dispensers can seamlessly and interoperably exchange EPCIS data as products are shipped from a manufacturer to a wholesale distributor and finally to a pharmacy.

- See how pharmacies can manage serialized receiving and meet new compliance requirements with minimal impact on operations.
- Learn how to streamline suspect drug investigations to ensure products are safe to dispense.
- See how serialized product exceptions can be reported and resolved with real-time collaboration.

You'll also see how pharma manufacturers can use TraceLink Serialized Product Intelligence to discover and address the root causes of exceptions that can lead to costly supply chain disruptions. Fill out the form on this page to watch the webinar now!
