Why Sentara Health Views DSCSA Compliance as a Valuable Business Opportunity

Tyler Martinson
*Pharmacy Manager
Sentara Health*

Pharmacies that choose the right **U.S. Drug Supply Chain Security Act (DSCSA)** **compliance** partner can do much more than simply comply with the law. They can also improve inventory management, collaborate with supply chain partners in real time to resolve compliance errors, and gain access to drug shortage predictions.

In this video, Tyler Martinson, pharmacy manager at Sentara Health, explains how DSCSA compliance on the TraceLink digital network platform sets the foundation for additional business benefits, including increased operational efficiency and improved supply chain visibility. Watch it now!

Time Stamps:

- **1:10** - Who were the key stakeholders involved in your DSCSA project?
- **2:38** - How did the TraceLink "Integrate Once" network model impact your organization?
- **3:28** - What kind of results are you seeing?
- **3:58** - What advice do you have for other health systems facing DSCSA compliance requirements?
- **4:59** - What's next for Sentara?
