How Does TraceLink Support Real-Time Transaction Exchange with My Suppliers?

MINT for External Manufacturing & Direct Supply

• Integrate-Once™ for:

- Forecast Planning Schedules
- Forecast Planning Schedule Responses
- Purchase Orders
- PO Acknowledgements
- Advance Ship Notices
- Invoices
- Remittances

• Real-time business transaction exchange to:

- Align on annual purchase volumes with suppliers
- Improve PO timeliness and accuracy
- Confirm/collaborate PO quantities and due dates
- Ensure purchase order deliveries are aligned with production schedules
- Streamline the invoice and payment process

How does TraceLink MINT enable you and your suppliers to exchange POs, PO acknowledgements, invoices, ASNs, and much more in real time? And how much does it cost?

Bharath Sundararaman, General Manager of Supply Network Orchestration at TraceLink, explains in this brief video.

Watch the video and then **contact us** to schedule your personalized TraceLink MINT demo today.
